REASONS FOR ALLOWANCE

1) The following is an examiner's statement of reasons for allowance: Upon review of the remarks dated 11/28/06 and after review of the prior art, it is the examiner's position that the case is now in condition for allowance. The closest piece of prior art Christensen (WO 96/00189) albeit very similar to applicant's claimed invention fails to adequately teach nor address the issue of "vibrational energy as it is applied to the substrate" during said "process for the conversion of a substantially fluid phase substrate by heterogeneous contact of the substrate or a fragment or derivative thereof with a substantially solid phase agent wherein the solid phase agent is comprised as a surface of a support element or part thereof and the support element is adapted to rotate around an axis such that the solid phase agent provides a rotating surface or part thereof and the substrate provides a film flowing substantially radially outward from the axis in dynamic contact with the agent; characterised in that additional vibrational energy is applied to the substrate."

None of the other prior art applied in non-final rejection comment on or teach the limitation regarding the vibrational energy as applied to the substrate as in independent claim 1. Therefore it is the examiner's position that the case is now

in condition for allowance. For further information please see Attorney's remarks for more details.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to G. Nagesh Rao whose telephone number is (571) 272-2946. The examiner can normally be reached on 9AM-5PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Yogendra Gupta can be reached on (571)272-1316. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
